## DETAILED ACTION

1. Claims 1-14 are pending in the Application.

### *Election/Restrictions*

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

- **Species I**, embodiment illustrated in fig 2A
- **Species II**, embodiment illustrated in fig 4
- **Species III**, embodiment illustrated in fig 14
- **Species IV**, embodiment illustrated in fig 18
- **Species V**, embodiment illustrated in fig 19
- **Species VI**, embodiment illustrated in fig 20
- **Species VII**, embodiment illustrated in fig 21
- **Species VIII**, embodiment illustrated in fig 22
- **Species IX**, embodiment illustrated in fig 23
- **Species X**, embodiment illustrated in fig 24
- **Species XI**, embodiment illustrated in fig 25

- **Species XII**, embodiment illustrated in fig 26
- **Species XIII**, embodiment illustrated in fig 27
- **Species XIV**, embodiment illustrated in fig 28
- **Species XV**, embodiment illustrated in fig 29
- **Species XVI**, embodiment illustrated in fig 30

3. Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species (if Applicant does not agree with the claims identified above by the examiner), including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
